2025/11/29 12:12 1/1 Backup

Backup

eServices Greece continuously backups your data. Our hosting servers are using RAID 1+0 to safeguard your data and offer the best performance possible. Our backup regimen includes multiple full backups during a vast period of time.

Backup Schedule

Period	Notes	
Last3 days		
Last3 weeks	(On Sunday)	
Every 15 days	3 backups	

For every 1GB of data you store in our web servers, we keep 9GB of Backups.

Backup Example

If we assume today is the **Saturday the 30th of January** then we would have the following backups on storage.

Date	Month
29th	January
28th	January
27th	January
23rd	January
15th	January
16th	January
9th	January
31st	December
16th	December
