Very easy

# esgtools

## Goals

esgtools is a cli multi tool used internally by eSG but will work on any standard environment. Please note that some functions will work best on the eSG Standard Image 2014 & 2017 based in centos 6.8 and 7 respectively.

## Options

- profiles - Install esg profiles for selected apps
- build - Build current Go project using the eSG Build script
- web - Web Tools
- update - Update esgtools to the latest version
- hash - Create fast SHA256 hash of file
- install - Install supported applications
- disk - **TBA**
- debug - Show debug information
- minify - Minify CSS, HTML, JS, JSON, SVG, XML
- registry - Windows Registry Reading & Patching **TBA**

### profiles options

- vim - Install the eSG vim profile
- tmux - Install the eSG tmux profile

### web Options

- size - Will calculate website size
- headers - Will dump all http headers from a url
- tags - Will detect tags like Google Analytics and AdSense
- http - Detect http protocol

### build Options

- arch - Reports all available architectures
- env - Will build the standardized esg environment **TBA**
- filename.go - if you pass it a go project it will build it and optimize it **TBA**

## install Options

- tools - Will install esgtools to /usr/local/bin (v0.6.3+)
- go - Will install Go and setup paths **TBA**

## Installation

The tool doesn't require any installation just use the following to download it.

|       |     |   |
|-------|-----|---|
| Linux | x64 | <code>curl -L https://tools.eservices-greece.net/download.php?f=esgt_linux_amd64 -o esgt;chmod +x esgt</code> |
| Linux | x86 | <code>curl -L https://tools.eservices-greece.net/download.php?f=esgt_linux_386 -o esgt; chmod +x esgt</code>  |

esgtools has its own page <https://tools.eservices-greece.net/>

## Usage Examples

### Install profiles

```
./esgtools profiles vim
```

```
./esgtools profiles tmux
```

### File hash

```
./esgtools hash sha256 filename
```

### Webpage Size

```
./esgtools web size https://eservices-greece.com
```

### Webpage Headers

```
./esgtools web headers https://eservices-greece.com
```

**Webpage Tags (analytics etc)**

```
./esgtools web tags https://eservices-greece.com
```

**Webpage protocol**

```
./esgtools web http https://eservices-greece.com
```

**Minify File**

```
./esgtools minify inputfilename outputfilename
```

**Update esgtools**

```
./esgtools update
```
